

Sprint 3 Plan
AnyBuy
Team AnyBuy
05/08/18

Goal: The high-level goals for this sprint are to allow users to post a product the seller to be able to make an offer on the items. Also, as a user, be able to edit my profile and add an address and paying methods.

Task Listing, Organized by User Story:

User Story 1 ("1. As a seller be able to view ads and make an offer.")

Task 1: Create a sell page (1 minute)

Task 2: Initially, be able to view 10 posts at a time. (4hrs)

Task 3: Make a button and a edit view to allow the seller to make an offer and that offer. (1hour)

Task 4: Send the offer from the seller to a buyer. (2 hours)

Task 5: Allow the buyer to accept or reject the offer. (5 minutes)

Total for user story 1: 7hrs and 6 minutes

User Story 2 ("2. As a buyer, be able to post an image for the product.")

Task 1: Find the address of the image (1 hour)

Task 2: Giving the address to the database (1 hour)

Total for user story 2: 2hrs

User Story 3 ("3. As a User, be able to add information to my profile page.")

Task 1: Create a profile page. (2 minutes)

Task 2: Be able to change profile picture (1 hour)

Task 3: Be able to communicate with the database and edit the address. (3 hours)

Task 4: Create the payment methods. (2 hours)

Task 5: Store the product you order in buy page in your history. (4 hours)

Task 6: Store the products you offered to buy for another user. (4 hours)

Total for user story 3: 14hrs and 2 minutes
