0xFFFF	Doesn't Crash	
<p>I went to the order history page to look up my orders.</p> <p>Currently when you look up your orders the information shown is the id, the status, brand, quantity and the time ordered.</p> <p>No line error</p> <p>It would probably be a good idea to also include the name of the item in the order description incase users try to buy multiple items of the same brand.</p>
