

# Sprint 2 Report

AnyBuy

Team Any Buy

05/08/18

**Actions to stop doing:** The team should stop being unorganized and condense all important resources to one location so that everyone knows where everything is and can be easily accessed.

**Actions to start doing:** The team should start working more together and asking more questions so that when someone has a question they will be more likely to ask and get the problem resolved.

**Actions to keep doing:** The team should keep meeting as frequently as we are because it provides a good work environment and allows everyone to keep track of where everyone is in their work.

**Work completed/not completed:** For this sprint we were able to have the user create their profile and we were able to have the buyer post an ad. We did not complete the seller being able to view ads and accepting the ads.

**Work completion rate:** For this sprint we managed to complete two of the three user stories that we had listed. In total we completed about forty work hours during this sprint. We worked for fourteen days so we averaged about three hours a day.
