ISPDMK0001	PaymentDelete	Back Button
0xFFFF	Doesn't Crash	
<p>I went to the payment delete page and wanted to go back to the payment page.</p> <p>Currently when you go to the delete payment page there is no way to go back to the payment page unless you delete a form of payment.</p> <p>No line error</p> <p>All that needs to be done is add a back button at the top like most of the pages have.</p>
