Sprint 3 Report

AnyBuy
Team Any Buy
04/24/2018

Actions to stop doing: We should stop working on the same activities because when we push and pull to the git hub, there are conflicts that creates bugs.

Actions to start doing: We must finish the search for the sell page and get the next 10 orders. Also fix the buy page because there is a bug. Create the offer page and make it functional. Let the user change email and password. Since this is the 3rd sprint, we should be finishing everything in our release plan.

Actions to keep doing: We need to finish up with the buy and sell page and start working on the other activities.

Work completed/not completed: we updated the framework and security. Created upload, modify, delete and pull payment information in profile page. Also, the upload, modify, delete and pull address info in profile page. Also, were able to upload ads from the front end to the back end.

Work completion rate: For this sprint we completed two user stories. For this sprint since we completed about twenty work hours. The first week of this sprint was the midterm week and so we finished both of the user stories on the second week.
